Adjusted margins better than estimates; strong EPS growth to continue

- RM cost inflation hurts margins, but recurring margin at 7.8%: Total volumes grew 2% YoY (-6.3% QoQ) to 673.6k units. Realizations declined marginally by 0.3% YoY (+1.7% QoQ) to ~INR42.2k. Net sales grew 1.7% YoY (-4.7% QoQ) to INR28.5b. Reported EBITDA margin shrunk 140bp YoY (~160bp QoQ) to 5.7% (est. of 6.7%). However, adjusted for higher discounts due to BS-3 inventory sales (INR571m) and sales tax incentive (INR316m for FY17, ~INR80m for 4Q accounted below EBITDA), recurring EBITDA margin was at 7.8%. Lower tax boosted reported PAT to ~INR1.27b (est. of ~INR1b; -7% YoY).
- Earnings call highlights: a) Expects domestic **2W** industry to grow 6-8% in FY18; TVSL to gain 1.5-2bp market share. b) **Double-digit margin target** slightly delayed due to demonetization; now expects FY18 exit margins to be in double-digit. c) **BMW Alliance**: Started BMW G310R supplies from Dec-16, with ~4,700 units in FY17. d) **Price hike**: Took price hike of INR500-1,000/unit in 4QFY17 and another INR200-300/unit in Apr-17. e) **TVS Credit Services**: TVSL has option to convert its preference shares to equity shares, which would result in 83-84% stake.
- Valuation and view: We have upgraded our estimates for FY18 and FY19 by 10.3% and 24.1%, respectively, as we a) incorporate BMW alliance numbers in our estimates and b) increase our volume and EBITDA estimates. EPS contribution from BMW alliance is 14.5% in FY19. Further, we now assign a value of ~INR46/share to TVSL's investments in TVS Credit Services as there is clarity of conversion of preference shares to equity shares. The stock trades at 30.1x/18.8x FY18E/FY19E EPS. Maintain Buy with a TP of INR581 (~20x FY19E EPS + INR46/share for value in NBFC investment post 20% HoldCo discount).

Volume growth moderates due to demonetization; Realizations improve QoQ due to price hikes

- Total volume growth moderated to 2.0% YoY (-6.3% QoQ) to 673.5k units, as motorcycle segment volumes continue to decline. Weak exports further added to 3W volume decline. Mopeds and scooters were the only positive outlier during the quarter.
- While motorcycle volumes declined 13.7% YoY and QoQ, mopeds and scooters sales grew 14% and 12.9%, respectively. 3W volumes continued to decline (-28% YoY) as headwinds in the export market persisted.
- Overall exports declined by ~9% YoY. 3W exports continued its fall with a 24.4% YoY decline as currency issues in key export markets of Nigeria and Egypt continued, supressing demand. 2W export volumes increased 15.5%.
- Realizations declined 0.3% YoY (+1.7% QoQ) to ~INR42.2k (v/s est. of ~INR41.9k) as the company has undertaken price hike to the tune of 2-3% across the range of models. Further, effective April, the company has indicated a nominal price hike to mitigate the risk of commodity inflation.
- As a result, net sales grew ~1.7% YoY (-4.7% QoQ) to INR28.4b (in-line).

One-offs drive down EBITDA margin by 140 bp YoY/ 160bp QoQ

- EBITDA margin contracted to 5.7% (v/s est. of 6.7%) due to higher RM cost, onetime discounts due to BS-3 inventory sales (INR571m) and sales tax incentives of ~INR80m for 4QFY17 (~INR316m for FY17) accounted below EBITDA. However, cost control due demonetization helped in lowering staff cost and other expenses, partially diluting increase in RM cost.
- Adjusted for the above one-offs, recurring EBITDA margins would be ~7.8%.
- Reported EBITDA was at ~INR 1.6b; decline of 19.2% YoY (~26.1% QoQ)
- However, lower tax restricted PAT decline to 6.8% YoY and 4.4% QoQ to INR1.26b (est. of INR1.01b).

Other key highlight from the conference call

- **2W Industry outlook for FY18e:** TVSL expects domestic industry to grow at 6-8% in FY18 in normal monsoon scenario. It expects its mopeds to grow in-line with 2W industry. Overall, it is targeting market share gain of 1.5-2% in FY18 to 15.8-16%.
- Margin guidance intact: It maintained its aspiration of double digit EBITDA margins by end of FY18, driven by operating leverage benefits. Demonetization delayed timeline for margin improvement by 2-3 quarters. Management maintained EBITDA margin target of ~10% in FY19.
- BMW alliance supply of BMW G310R in exports markets: TVSL commenced supplies of BMW G310R model from Dec-16 and have dispatched ~4,700 units in FY17. TVSL is yet to get volume schedule for FY18 from BMW.
- Commodity costs: RM cost increased QoQ due to commodity cost increase and BS4 related cost. It has taken price increase of INR500-1000/unit in 4QFY17 and another INR200-300/unit in Apr-17, which partly dilutes cost inflation. It will need to further increase price to neutralize the impact of cost inflation.
- Price hike to mitigate BS-4 and increase in RM costs: TVS has taken a price increase of 2.3% to offset the rise in commodity prices. The management indicated that it would take necessary price hikes to pass on the cost pressures.
- Indonesian subsidiary: Volume grew over 50% to ~25k units, resulting in lower EBITDA loss at USD3m (down 50%).
- Export markets continue to face headwinds on 2 counts, a) devaluation of currency in African and Latin American markets affecting purchasing power and consequently retail demand. b) Availability of foreign currency affecting dispatches of OEMs.
- New launches: It plans to launch new products in motorcycle and scooter segments in in FY18.
- TVS credit services: TVSL has invested INR6.2-6.5b largely through preference equity in its NBFC arm. The management indicated that TVSL has option to convert preference shares into Equity, which would result in TVSLs stake in NBFC at 83-84% (though timeline is not disclosed). As of Mar-17, loan book was ~INR50b (+26% YoY), of which 50% is 2W and balance is used cars and tractors.
- Capex: It expects to invest ~INR5b as capex in FY18, alongwith further investments in Indonesian business (though quantum would be lower due to lower losses).

Valuation and view

- Strong volume performance to continue: We estimate TVSL volume outperformance to continue driven by strong growth in scooters, Apache and additional volumes coming from supplies to BMW alliance. We estimate 14.5% volume CAGR over FY17-19E and revenue CAGR of ~25% driven by mix improvement led by BMW alliance.
- EBITDA margins to expand 290bp over FY17-19E with improving market position and scale: TVSL has been generally aggressive in pricing the products due to its weak brand equity. Improving competitive positioning together with operating leverage (particularly on marketing and employee cost) to drive 290bp margin expansion to 10% over FY17-19E. This would result in EPS CAGR of ~51% over FY17-19E.
- BMW Motorrad tie-up to give additional revenue stream, technological edge: We believe this tie-up would give TVSL an additional revenue stream in the form of contract manufacturing for BMW Motorrad. Moreover, it would give an aspiration value to TVSL products, particularly premium ones. TVSL has invested ~EUR20m, with supplies of the first product starting from Dec-16. We have now incorporated supplies to BMW alliance in our estimates.
- Valuation and view (earnings momentum to remain strong): We have upgraded our estimates for FY18 and FY19 estimates by 10.3% and 24.1% respectively driven by a) as we incorporate BMW alliance numbers in our estimates, and b) increase our volume and EBITDA estimates. The EPS contribution from BMW alliance is 14.5% in FY19. Further, now we give value of ~INR46/share to TVSLs investments in TVS Credit Services as there is clarity of conversion of preference shares to equity shares. The stock trades at 30.1x/18.8x FY18E/FY19E EPS. We maintain BUY with a TP of INR581 (~20x FY19E EPS + INR46/share for value in NBFC investment post 20% HoldCo discount).
