CMP: INR272 TP: INR365 (+34%)

Core profitability surprises positively; Stress pool down 3% QoQ

- ICICIBC's reported PAT of INR20.2b missed our estimate by 12% due to higher-than-expected provisioning. Core PPoP growth of 8% YoY surprised positively (15% beat). Key positives: a) Strong NII growth of 10% QoQ, aided by an impressive NIM performance (+45bp QoQ; includes interest collection from NPLs). b) 85% of Q4 slippages originated from watch list and OSRL of 3Q. c) Pool of net stressed loans (NNPA + other forms of stress loans) declined 3% QoQ to INR548b (11.8% of loans). d) Fee income growth of 10% YoY, helped by strong retail fee growth of ~20% YoY. e) Average daily CASA ratio improvement of 170bp QoQ to 46.5%.
- Slippages during the quarter were INR112.9b, of which INR53.8b relates to a cement account (part of the watch list), which the RBI has asked banks to recognize as NPA. Nearly half of this exposure is expected to be upgraded soon, as it is part of an impending M&A transaction. Excluding this, slippages continued to moderate to ~INR59b, as against INR70b in 3Q and ~INR80b in 2Q. Non-watch list and RL slippages declined to INR15b from INR20.5b a quarter ago.
- Other highlights: (1) Floating provisions of INR15b utilized completely in 4QFY17. (2) Reversed INR2.9b of gain on repatriation booked on foreign operations (as per RBI guideline) in 9M. (3) Added 345 branches during the quarter, taking total to 4,850. (4) Declared the dividend of INR2.5/share and announced bonus issue of 1 share for every 10 shares held.
- Valuation and view: Overall pool of stressed loans is showing signs of stability, and bulk of NPA recognition is happening from watch list and OSRL. Further expected measures by Gol/RBI for resolution of lumpy stressed loans provide comfort. Strong capitalization (tier I of 14.4%), significant improvement in granularity of book (~57% retail + SME) and sustained improvement in liability profile (helping to de-risk business) are the key positives. We have cut estimates by 5% to factor in NIM moderation with rising competition; reiterate Buy with SOTP of INR365 (FY19-based).

Overall deposits grew 16% YoY led by robust CASA influx; Average Daily CASA ratio surpasses 3Q high levels to reach 46.5%

Robust CASA growth; Strong margin performance

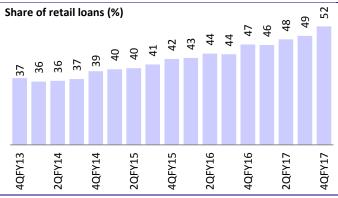

- Reported NIM for the quarter came in at 3.6% (+45bp QoQ). This includes income tax refund of INR2b and certain amount on account of benefit of interest collection from NPAs.
- Domestic margins increased sharply by 45bp QoQ to ~4% led by sharp fall in COF (-24bp QoQ). Overseas NIMs increased 18bp QoQ to 1.01%
- Strong CASA growth of +28% YoY (+6% QoQ) was driven by robust SA deposit inflows (+28% YoY, + 4% QoQ). CA deposits grew 27% YoY (+13% QoQ). Overall CASA ratio improved 50bp QoQ to 50.4% v/s 49.9% in 3QFY17 and 45.8% in FY16.
- Average daily CASA ratio increased to 46.5% (+170bp QoQ and 600bp YoY) to reach life time high levels.

Domestic loan growth remains healthy at 14% YoY despite overall slowdown in credit growth

Healthy domestic loan growth driven by strong retail performance

Overall loan growth remained moderate at 7% YoY (+1% QoQ). Domestic loans grew +14% YoY whereas, international loans were down 20% YoY owing to maturity of overseas loans against FCNR deposits. Proportion of international loan in overall loans now stands at 17% v/s 18% in 3QFY17.

Exhibit 2: Share of retail loans in overall loans –highest levels since 2010 (%)

Source: MOSL, Company

Exhibit 3: Share of international loans in overall loans – lowest since 2009 (%)

Source: MOSL, Company

Retail loans now account for 52% of overall loans v/s 47% in FY16 – highest level since 2010

- In domestic portfolio, incremental loan growth was driven by granular retail segment (+7% QoQ and +19% YoY). Within retail loans, personal loans (+41% YoY), credit cards (+37% YoY), business banking (23%), home loans (+17% YoY), and rural (+19% YoY) all showed robust growth. Vehicle loans grew by +16% YoY (similar to 3QFY17).
- Domestic corporate loan was muted at 5.8% YoY, primarily on account of the bank's focus to reduce exposure to stressed sectors (12% v/s 13.3% in FY16).

Bulk of slippages from drill down list - encouraging trend on asset quality

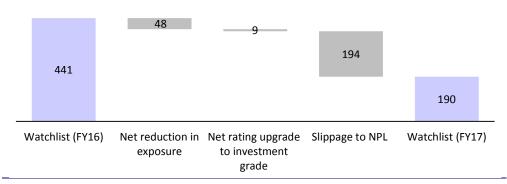

- Slippages (excluding INR53.9b on account of the cement account) continued to moderate QoQ to ~INR59b v/s INR70b in the previous quarter, yet remained elevated.
- Absolute GNPA increased 12% QoQ to INR425b and stood at 7.9% of customer assets as against 7.2% in 3QFY17. PCR declined 700bp QoQ to 40.2%.
- The bank utilized the full amount from the balance INR15b contingency provisions remaining from 3Q.
- Movement from watch-list/ OSRL to NPA was INR79.6b/INR18b. O/S SDR and 5:25 stood at INR64.5b (1.4% of loans; includes INR16.5b restructured assets) and INR27b (0.6% of loans) primarily from already stressed loans communicated. On back of slippages of INR79.6b and upgrades of ~INR11.6b (better ratings)/reduction in exposure, watch-list declined 31% QoQ to INR190.4b (3.7% of customer assets).
- All in all ~80% (~90% in Q4-2017 and ~75% in Q3-2017) of the gross additions to NPAs for the wholesale/SME businesses and about 77% (~86% in Q4FY17 and ~71% in Q3FY17) of the total gross additions were on account of slippages relating to companies internally rated below investment grade in key sectors, restructured portfolio and devolvement of non-fund based exposures related to prior NPLs.

Source: MOSL, Company

The bank added 345 branches during the quarter

Other Highlights

- Fee income growth continued to show healthy traction (+10% YoY) driven by retail fees growth (+15% YoY). Retail fees stood at 70% of overall fees. Higher share of retail fees in our view is driven by strong third party distribution fees.
- Other income includes trading gains of INR5b v/s INR9b in 3Q.
- Operating expenses increased 14% YoY (+2% QoQ). Employee expenses increased 7% YoY v/s 23% YoY in 3Q.
- Other operating expenses increased 18% YoY The bank added 345 branches during the quarter taking the total up to 4,850 branches at the end of FY17 (+9% YoY v/s 4,450 branches at the end of FY16.
- Overall cost to income ratio decreased QoQ to 43% v/s 44.3% in 3QFY17 (but increased on a YoY basis from 32% in 4QFY16).

Exhibit 7: Bank has added 348 branches in the last 4 quarters

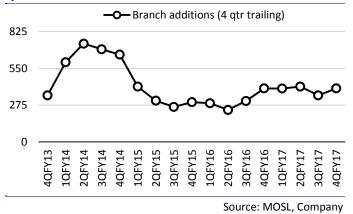

Exhibit 8: ICICIBCs branch network is now again larger than HDFCB's (nos.) in this quarter

Performance of subsidiaries; Consolidated RoE at ~9%

- ICICI UK's total assets declined 24% YoY to USD3.5b; Subsidiary reported net loss of USD20m v/s USD1.1m loss in 4QFY17. CAR stood at 18.4%
- ICICI Canada's total assets were at CAD6.3b (down 3% YoY). PAT for the quarter came in at CAD18m v/s earnings of CAD16m in 4QFY16. CAR was at 21.8%.
- ICICI Life Insurance reported PAT of INR4.1b (flat YoY). APE for 4QFY17 increased to INR21.45b. AUM grew by 18% YoY to INR1.23trillion.
- For 4QFY17, general Insurance business reported profit of INR2.5b v/s INR1.7b in 4QFY16.
- Consolidated PAT for 4QFY17 grew 5x YoY to INR20.8b and consolidated RoE came in at ~9% as compared to 10.4% in 3QFY17 and 1.7% in 4QFY16.

Conference call highlights

Balance Sheet related

- Mortgage/auto/business banking/rural lending/CV/unsecured & CC grew 17%/14%/23%/19%/18%/39% YoY. Unsecured loans were primarily driven by cross-sell. SME loans grew 17.5% YoY.
- NIM should remain above 3% in FY18
- Domestic loan growth to be 15%-16%, SME expected to grow 15% 20%, retail will grow 18% 20%, overseas to be flat

P&L related

- Effective tax rate for FY18 would be higher than that of FY17.
- Interest on IT refund was Rs 2bn (Rs 1.39bn in 3QFY17 and Rs 0.73bn in 4QFY16)
- FY18 provisioning expense will remain elevated but will remain lower than FY17. RBI guidelines may require higher provisioning for std. assets based on evaluation.

Asset quality related

- Some of the large cases in the drill-down list have clear resolution underway
- Retail book had Rs 4.4bn NPA additions, Rs 5.24bn of recoveries & upgrades, Rs
 2.32bn of RBI dispensation, 14.13bn aggregate reduction in NPA
- 4QFY17 SDR book at Rs 52bn (Rs 34bn in Dec '16), during 4QFY17 a power account was invoked. Expect addition of another Rs 12bn to SDR of which Rs 7bn is already restructured
- Expect FY18 slippages to be significantly lower, and asset resolutions to happen.

Cement account details – awaiting certain approvals (Approvals from NCLT have arrived, pending transfer of mines in the name of the new buyer, company has 18 mines). Expect resolution within 90 days from application, 50% of the amount should be upgraded within 2 quarters at most. The other 50% is secured and has cash flows to service debt

15% provision made against SRL/SDR till 2QFY17, 5:25 accounts have had usual std. asset provisioning, additional provisions of Rs 10-11bn held by the bank for SRL/SDR accounts over and above RBI requirement

Buy with a SOTP based TP of INR365

Valuations and View

- Overall pool of stress loans is showing signs of stability and bulk of the NPA recognition is happening from watch list and OSRL. Further expected measures by GOI/RBI for resolution of lumpy stress loans provides comfort. Recognition of lumpy corporate accounts (from watchlist) in the key stress sectors would assuage the fears of negative surprise in the ensuing quarters. Incremental news flows of stake/project sale of the some of the stress corporate groups and improvement in commodity cycle, where ICICIBC has exposure and may be part of watchlist, are positive for the bank.
- Near term business growth will be driven by retail business and the share of high profit making products (mainly by cross sell) like credit cards, personal loans and business banking is likely to go up. Within corporate loans, working capital and transaction banking related loans are likely to be the key drivers. Lower capex related demand and increasing pricing pressure on matured project loan (refinancing by competition at lower rate) remains a drag on corporate loan growth and profitability.
- Retail business matrix remain healthy with a) Core CASA ratio of ~46% b) Contribution to fees at 70%+ c) Higher share of secured loans (~90% of retail loans) and continued healthy growth and d) NNPA ratio of ~0.5%. Structural improvement in liability and ALM profile over the last few years has helped ICICIBC to gradually improve NIMs to 3.2%+, despite increasing competition within retail business, low risk corporate loans and falling interest rate scenario. Continued mix shift will help to mitigate pressure of domestic margins to overall margins.
- Strong capitalization (tier I of 14.4%), significant improvement in granularity of book (~57% retail+SME) and sustained improvement in liability profile (helping to de-risk business) are the key positives.
- Our target multiple of 1.5x is based on the residual income model with the key assumptions are a) cost of equity 14.3% (RF of 7%, Beta of1.46x), b) average growth rate of 14% over FY20-36 and c) Terminal growth of 5%. Buy with SOTP based TP of INR365 (1.5x FY19E BV core business).

Disclosures

This document has been prepared by Motilal Oswal Securities Limited (hereinafter referred to as Most) to provide information about the company (ies) and/sector(s), if any, covered in the report and may be distributed by it and/or its affiliated company(ies). This report is for personal information of the selected recipient/s and does not construe to be any investment, legal or taxation advice to you. This research report does not constitute an offere, invitation or inducement to invest in securities or other investments and Motilal Oswal Securities Limited (hereinafter referred as MOSt) is not soliciting any action based upon it. This report is not for public distribution and has been furnished to you solely for your general information and should not be reproduced or redistributed to any other person in any form. This report does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Before acting on any advice or recommendation in this material, investors should consider whether it is suitable for their particular circumstances and, if necessary, seek professional advice. The price and value of the investments referred to in this material and the income from them may go down as well as up, and investors may realize losses on any investments. Past performance is not a guide for future performance, future returns are not guaranteed and a loss of original capital may occur.

MOSt and its affiliates are a full-service, integrated investment banking, investment management, brokerage and financing group. We and our affiliates have investment banking and other business relationships with a some companies covered by our Research Department. Our research professionals may provide input into our investment banking and other business selection processes. Investors should assume that MOSt and/or its affiliates are seeking or will seek investment banking or other business from the company or companies that are the subject of this material and that the research professionals who were involved in preparing this material may educate investors on investments in such business. The research professionals responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting information. Our research professionals are paid on twin parameters of performance & profitability of MOSt.

MOSt generally prohibits its analysts, persons reporting to analysts, and members of their households from maintaining a financial interest in the securities or derivatives of any companies that the analysts cover. Additionally, MOSt generally prohibits its analysts and persons reporting to analysts from serving as an officer, director, or advisory board member of any companies that the analysts cover. Our salespeople, traders, and other professionals or affiliates may provide oral or written market commentary or trading strategies to our clients that reflect opinions that are contrary to the opinions expressed herein, and our proprietary trading and investing businesses may make investment decisions that are inconsistent with the recommendations expressed herein. In reviewing these materials, you should be aware that any or all of the foregoing among other things, may give rise to real or potential conflicts of interest. MOSt and its affiliated company(ies), their directors and employees and their relatives may; (a) from time to time, have a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein. (b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the affiliates of MOSt even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report

Reports based on technical and derivative analysis center on studying charts company's price movement, outstanding positions and trading volume, as opposed to focusing on a company's fundamental analysis. In addition MOST has different business segments / Divisions with independent research separated by Chinese walls catering to different set of customers having various objectives, risk profiles, investment horizon, etc, and therefore may at times have different contrary views on stocks sectors and markets.

Unauthorized disclosure, use, dissemination or copying (either whole or partial) of this information, is prohibited. The person accessing this information specifically agrees to exempt MOSt or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOSt or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays. The information contained herein is based on publicly available data or other sources believed to be reliable. Any statements contained in this report attributed to a third party represent MOSt's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. This Report is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. While we would endeavor to update the information herein on reasonable basis, MOSt and/or its affiliates are under no obligation update the information. Also there may be regulatory, compliance, or other reasons that may prevent MOSt and/or its affiliates or employees shall not be in any way responsible and liable for any loss or damage that may arise to any person from any inadvertent error in the information contained in this report. MOSt or any of its affiliates or employees do not provide, at any time, any express or implied warranty of any kind, regarding any matter pertaining to this report, including without limitation the implied warranties of merchantability, fitness for a particular purpose, and non-infringement. The recipients of this report should rely on their own investigations.

This report is intended for distribution to institutional investors. Recipients who are not institutional investors should seek advice of their independent financial advisor prior to taking any investment decision based on this report or for any necessary explanation of its contents.
