Astral Poly Technik

Accumulate

De-growth in pipes business due low demand from urban areas, adhesive business remains laggard for the quarter. Story remains intact. Maintain Accumulate

- Astral Poly Technik (ASTRA) Q1FY21 numbers were in line with estimates on revenue front. Volume de-growth of 31.3% YoY and 5.5% QoQ due to lockdown situation, major volumes lost in Tier 1 cities as construction activities were stalled. As adhesives business falls under non-essential category the plants started operations later in May affecting the business.
- Adhesive segment in the month of July showed a positive growth after a subdued previous quarter. Margins on a full year showed growth as structural changes of eliminating stockists was undertaken. Stockist margins of 6-8% was removed which directly benefited the Company. The structural changes are completely complete now.
- ASTRA has plans for expansion and have acquired adjacent land at most of their plants for expansion purposes. To have a pan India presence they acquired a land in East India. In FY21, they will not be heavily spending on branding activities. We believe that these are investment phases and ASTRA will reap long term benefits of these strategies for prolonged periods atleast for the next 5 years.
- With new product addition in the Adhesive segment as well as pipe segment, we feel that revenue growth along with margin profile should get better once the economy is on recovery track.
- With high growth trajectory and expansion activities in place, valuations will remain expensive. Maintain Accumulate with a target price of Rs 1,058. (55x FY22E).

Pipe Segment- High growth engine for long term

During Q1FY21, piping segment de-growth was 35.5% QoQ, however realisations de-grew 2.9% sequentially. In the month of April there was a volume de-growth of 93%, in May de-growth was 19%, in June de-growth was 4% and in July de-growth was 4% YoY. They lost sizeable sales in April as the plants were also shut, however from May to July they have moved fast on recovery path and recovered more than 91% of sales. Their contribution in the agri segment is negligible, so the company was highest affected. (Cont.)

New construction activities are picking up pace slowly from July onwards. Astral's focus on rural India has got volumes. Tier 1 cities still continue to be a laggard. With government push and new schemes this segment is expected to grow manifold from H2FY21. Investments in the brand has enabled ASTRA to maintain premium pricing and protect margins.

Adhesive Segment

Since adhesive segment doesn't fall under essential services, the opening up of plants were delayed. However, there was a de-growth in monthly sales value in April by 68%, in May by 39% and in June by 13%. In July the adhesives segment was on a recovery mode and there was a growth in sales value by 26% YoY. They have recovered 91% of its sales in adhesives segment. Full year margins for adhesives business grew due to structural changes undertaken by the company. By eliminating stockist they could save 6-8% of margins which in turn benefitted the company. This segment will be positive from coming quarters. Top management focus is on this segment, as this is the future growth engine for ASTRA. We believe that this is a cycle and ASTRA will reap long term benefits of this as this product has one of the best margins across all the product offerings. Adhesives business is expected to revert to normalised growth levels post H2FY21.

Capacity Expansion - reducing freight cost

ASTRA has been expanding its capacity across plants to capitalize on the upcoming demand in the piping as well as Adhesive segment. To save on logistics cost they have set up a centralized warehouse in South, work for which is over and complete range of products are available. ASTRA now has plants across regions including East India. The East plant will commercialise by Sep'21. We believe that having plants across India will provide logistic advantage to ASTRA in the longer run. Logistics cost is 8-14% of the product cost. In the Adhesive segment, ASTRA will get all the products from SEAL IT and this will ensure higher revenue growth with higher margin profile. They also plan to manufacture PEX A Pro inhouse in India. Plan to set up state of Art adhesive plant at Dahej is been delayed this year.

Conference Call Key Highlights

- Started operations at all plants in a phase wise manner. As on today all plants are completely operational with full manpower. There were migrant labour issues at some plants which were solved.
- Astral's priority is to maintain cash cycle, maintaining profits and reduce inventory levels. All these initiatives have helped them get cash in system and become debt free.
- Tier 1 cities were not fully operational. Challenge to sales to Tier 1 cities still continue.
- Dealers and distributors are now holding very low inventory as pre Covid levels due to the economic slowdown.

Piping Segment

- Pipes plants started in April end- May first week. Hosur plant started operations from second week of May. Pipes operation were average 50-55 working days in the guarter.
- Capex for valve project is Rs. 500 mn, part of which is already done. Rs. 200-250 mn of the project cost is already incurred as machinery have already been booked.
- Industrial valves which were completely imported, will now start manufacturing in India.

- Plumbing moulds above 2 inches for both PVC and CPVC which were completely imported will now be manufactured in India.
- Piping segment margins will be maintained at 17%
- Usually, this trend has been observed that in Q1 more of PVC is been sold and from Q2 onwards CPVC starts picking up.
- In Q1FY21, rural has been a major contributor.

Adhesive Segment

- Adhesive plants took a little longer to start as they do not come under essential services. They started operations in second half of May. Average working days were less than 45 working days in the quarter.
- Adhesives structural correction is now complete. And margins will improve from coming quarters.
- There is no channel inventory in Adhesives segment. 50% of the distributors are cash and carry.
- Adhesives segment growth of 26% in July has come across all segmentswood, maintenance and construction chemicals.

Financials

- Receivables for the quarter were below 30 days. Inventories also came down.
- Finished goods at March end was at Rs. 600-630 mn which has further reduced. It is expected that working capital cycle will improve this year.
- ASTRAL Group is now debt free at net level. Loan outstanding as at June 30,2020 was Rs. 1,671 Mn and cash of hand Rs. 1,738 Mn, net cash Rs.67 Mn. Post June they have further repaid its loan to the tune of Rs. 289 Mn.
