Capacite's Infraprojects (CAPACITE IN)

Rating: BUY | CMP: Rs106 | TP: Rs162

Washout quarter as execution had ceased

Quick Pointers:

- Execution completely halted as large part of order book belongs to MMR and Pune region, severely impacted by Covid-19 pandemic.
- Construction activities resumed in 32 project sites (~90% of Order book) as at July'20, labour force availability back to 4,000 plus levels vs 600 in May'20.
- Order book stands strong at Rs103.9bn (excluding Rs43.6bn MHADA orders)
 translating into an order-book-to-sales ratio of 6.9x FY20 revenues.

CAPACITE reported a washout quarter with revenues falling over 94% YoY led by nationwide lockdown and severe impact of Covid-19 pandemic in MMR and Pune region, thereby restricting execution to pick-up. However, company resumed operations in 32 sites (~90% of OB) by end of July'20. On the labour availability front, company currently has ~4,000 workmen (vs ~9,200 precovid) with technicians already reaching pre-covid levels and expects to reach ~5,000 workmen by end of Aug'20 and ~7000 levels post-monsoon. With strong order book from marquee clients, company anticipates substantial ramp-up in execution from H2FY21 onwards.

We believe that CAPACITE is well-positioned to gain traction driven by a) impressive execution track record with stable margins; b) healthy order book (Rs103.9bn as on 1QFY21, excluding MHADA orders) c) lean balance sheet with healthy return ratios; d) strong management pedigree; and e) asset-light business model. At CMP, the stock trades at an EV of 4.8x/2.9x FY21E/FY22E EBITDA. We maintain BUY rating with TP of Rs162.

Execution ceased to pick-up; losses curtailed by managing costs: The company reported a 94.2% YoY decline in revenues to Rs237mn (PLe Rs363mn) as execution ceased completely, initially due to nationwide lockdown followed by severe impact of Covid-19 in MMR and Pune region which contributes major part of its order book. Company posted EBITDA loss of Rs235mn (PLe: loss of Rs262mn). On bottom-line front, company posted a loss of Rs424mn (against PLe: loss of Rs715mn) on the back of higher other income of Rs51mn (PLe Rs9mn) and lower depreciation (down 46% QoQ to Rs162mn vs PLe Rs314mn).

Resilient order book; Execution pickup would be key: Order book as at 1QFY21 stands strong at Rs103.9bn (excluding Rs43.6bn MHADA orders). This translates into an order-book-to-sales ratio of 6.9x FY20 revenues. Public - Private sector ratio stands at 55-45% respectively. Of the ~Rs47bn OB from private sector, Rs27bn pertains to large developers with strong balance sheet position while ~Rs7.5bn further private sector projects are classified as slow moving on which company expects clarity by end of 2QFY21E. Gross debt as at 1QFY21 continues to remain low at Rs3.5bn against which company holds cash and cash equivalents of Rs3.2bn. Net D:E stands low at 0.1x.

Exhibit 1: Quarterly Financials (Standalone): Complete halt in execution result in negligible revenues for the quarter
