# Titan Company (TITIND): Higher base formation at previous breakout area & lower band of the channel offers favourable risk reward...

#### Fundamental View: Titan Company (TITIND)

- Titan Company is a major player in the organised jewellery market with share of ~6%. Tanishq's penetration is still at a very nascent stage in the Indian jewellery market. This provides immense opportunity for Titan to enhance its market share, going forward. Recent regulatory changes such as gold hallmarking, GST have turned out to be highly favourable for organised players like Titan, leading to market share gains from unorganised players. The market share gains are visible as Tanishq reported robust revenue CAGR of 19% in FY16-20
- · Since the outbreak of the pandemic, perception of gold as an asset class has seen healthy traction. Demand for plain gold jewellery, gold coins has zoomed owing to a surge in gold prices. Titan is among few discretionary companies in our coverage to have reverted back to heathy sales growth. Titan's jewellery division witnessed strong revival with revenue growth of 16% YoY in Q3FY21. Revenue trajectory accelerated further in January with jewellery division seeing 28% YoY growth driven by 16% growth in studded ratio
- The healthy growth revival depicts the inherent strength of the Tanishq brand and continuous focus on market share gains. Furthermore, a revival in share of studded ratio augurs well for overall margin profile
- The company's 'War on Waste' programme is well on track with tight control on inventory position and higher focus on gold on lease replenishment (~56% of inventory). We expect initiatives to improve cash positions and significantly enhance RoIC (from 31% in FY20 to ~42% in FY23E). We build in revenue and earnings CAGR of 14% and 22%, respectively in FY20-23E
