

Price hikes to help recoup margins, going ahead...

About the stock: JK Lakshmi mainly caters to north, west & eastern markets with total capacity of 13.3 MT (including subsidiary). It has integrated units at Sirohi, Udaipur (Rajasthan), and Durg (Chhattisgarh) while grinding units at Jhajjar (Haryana), Cuttack (Odisha), Kalol and Surat (Gujarat).

- It also has 105 MW power plant (74 MW CPP, 21 MW WHRS, and 10 MW solar) that fulfils 75% of its total power requirements
- The company is now adding 2.5 MT cement capacity (1.5 MT clinker) through its subsidiary unit UCWL at cost of ₹ 1400 crore

Q2FY22 Results: Results remained weak due to volume disappointment along with the higher cost pressure.

- Revenues were up 7% to ₹ 1118.2 crore led by sales realisation growth of 10.3% YoY to ₹ 4,820. Sales volume were down 2.9% YoY to 2.32 MT
- EBITDA/t was down 10.3% YoY to ₹ 701/t (vs. I-direct estimate ₹ 738/t). EBITDA margin was at 14.5%, down 333 bps YoY, 301bps QoQ
- PAT of ₹ 76.6 crore was down 5% YoY vs. (lower than our estimate: ₹ 82.4 crore)

What should investors do? JK Lakshmi's share price has grown by ~2.5x over the past three years (from ~₹ 331 in August 2018 to ₹ 816 in July 2021).

- We remain positive on the company and maintain BUY rating

Target Price and Valuation: We value company at ₹ 785 i.e. 10x FY23E EV/EBITDA

Key triggers for future price performance:

- With expected utilisation of 94%+ for FY22E, volume growth to moderate going forward as the new capacity will come on stream only in FY24E
- WHRS of 10 MW to get commissioned by Q3FY22 that should help contain power cost
- B/s strength to remain strong despite newly announced capex of ~₹ 1400 crore for its subsidiary unit UCWL

Alternate Stock Idea: Apart from JK Lakshmi, in our cement sector coverage we also like another north based player Mangalam Cement.

- The upcoming UP election along with enhanced clinker capacity to drive growth. The benefit of various incentives to provide cost advantage
- BUY with a target price of ₹ 600/share

Key performance highlights

- Sales volumes were at 2.32 MT (down 2.9% YoY, 12.7% QoQ). The decline was higher than expected as transporter's strike in Chhattisgarh affected business for 15 days during Q2 apart from monsoon led weakness. Expect volume growth of 10% for FY22E. H1FY22 had 16% growth in volumes
- EBITDA/t declined 10.3% YoY, 13.8% QoQ to ₹ 701/t (vs. I-direct estimate: ₹ 738/t) on the back of higher cost of production
- Price hikes of ₹ 15-25/bag announced to mitigate the cost pressure and recoup the margins. Another hike of ₹ 35-40/bag required to cover the entire cost pressure
- Petcoke share is 50% now from 80% earlier, 40% is coal and 10% bio-mass for company's fuel requirement. Also, 25% requirement of Durg plant is met through linkages
- Total ₹ 20-22 crore per year expected annually from new 10 MW WHRS unit, which is expected to get commissioned in December 2021

Key conference call highlights

Capex: At JKLC, no expansion currently (plans will be announced in coming quarters). They intend to increase market share in Gujarat and Rajasthan. A 10 MW WHR plant commissioning is expected in December 2021. No further plan for WHRS. A 5 MW solar power plant to get commissioned at UCWL by December 2021.

Capex at subsidiary- No plans to merge subsidiary unit due to differential rate of tax structure at present. It will happen over next two to three years. UCWL completed de-bottlenecking and expanded clinker capacity by 0.3 MT to 1.5 MT and cement by 0.6 MT to 2.2 MT. It is now undergoing ₹ 1,400 crore expansion. To add 2.5 MT cement and 1.5 MT clinker capacities (financed via debt and equity). Total capex at parent company will be around ₹ 150 crore for FY22E

Cement prices & Cost: Cement price has increased ₹ 15-20/bag in October 2021 to offset cost pressures. Fuel consumption costs at ₹ 8400 vs. 7000/t in Q1FY22. Current inventory at ₹ 9000/t+ cost which will be reflected in Q3

On merger of JKLC & UCWL: Currently no plans of merger between UCWL and JKLC due to difference in the tax rates (UCWL @ 25% & JKLC @ 34%)

Consolidated gross debt: Consolidated gross debt was at ~₹ 1660 crore while net debt at ₹ 960 crore. Standalone gross debt at ₹ 1100 and net debt of ₹ 600 crore; Debt repayment for FY22E is ₹ 330 crore and ₹ 20 crore for UCWL. Repaid already ₹ 125 crore of debt, balance ₹ 200 crore to be repaid in H2FY22E.

Key triggers for future price performance

To add 2.5 MT cement capacity through its subsidiary in Rajasthan: With capacity utilisation reaching over 99% in Q4FY21 and 91% in Q1FY22, the company will now be adding cement capacity of 2.5 MT (1.5TM clinker) at its existing plant in Udaipur unit (through subsidiary co Udaipur Cement Works Ltd) with total capex of ₹ 1400 crore. The same is likely to get commissioned by end of Q3FY24E. Ramp up of capacities in Durg in the past four years has led to co generating annual OCF of over ₹ 400 crore. Further, with liquidity buffer of ₹ 726 crore, we believe the company is in better position fund this new expansion.

Focus on cost reductions to drive further efficiency: Being predominantly a north (8.2 MT) and central (3.5 MT) player, the company has got structural advantage of balanced environment in these two high growing regions. Further, self-sufficiency in power, through captive power plant (CPP) of 54 MW, waste heat recovery (WHR) plant of 14 MW and solar power plant of 6 MW has helped the company to reduce reliance on costly grid power. The progress on the WHRS Unit-III Project at Sirohi (10 MW) is as per schedule and will be commissioned by Q3FY22. In the eastern region, the company has 7 MW WHR plant and has recently commissioned CPP of 20 MW to become self-sufficient. To reduce the freight cost, it has added 0.8 MT grinding unit in FY20 in Odisha. Proximity to market and self-sufficiency in power would continue to ensure improved cost efficiency going forward

Valuation & Outlook: While the company may remain laggard in terms of growth during FY21-23E due to delayed capacity expansion (likely commissioning Q3FY24E), the focus on strengthening b/s with significant debt reduction in FY22E remains key positive. Given constructive sector outlook, we maintain positive stance the company and retain our BUY rating with revised TP of ₹ 785/share (@ 10x FY23EV/EBITDA).

Our proprietary trading and investment businesses may make investment decisions that are inconsistent with the recommendations expressed herein.

ICICI Securities Limited has two independent equity research groups: Institutional Research and Retail Research. This report has been prepared by the Retail Research. The views and opinions expressed in this document may or may not match or may be contrary with the views, estimates, rating, and target price of the Institutional Research.

The information and opinions in this report have been prepared by ICICI Securities and are subject to change without any notice. The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of ICICI Securities. While we would endeavour to update the information herein on a reasonable basis, ICICI Securities is under no obligation to update or keep the information current. Also, there may be regulatory, compliance or other reasons that may prevent ICICI Securities from doing so. Non-rated securities indicate that rating on a particular security has been suspended temporarily and such suspension is in compliance with applicable regulations and/or ICICI Securities policies, in circumstances where ICICI Securities might be acting in an advisory capacity to this company, or in certain other circumstances.

This report is based on information obtained from public sources and sources believed to be reliable, but no independent verification has been made nor is its accuracy or completeness guaranteed. This report and information herein is solely for informational purpose and shall not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. ICICI Securities will not treat recipients as customers by virtue of their receiving this report. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. The recipient should independently evaluate the investment risks. The value and return on investment may vary because of changes in interest rates, foreign exchange rates or any other reason. ICICI Securities accepts no liabilities whatsoever for any loss or damage of any kind arising out of the use of this report. Past performance is not necessarily a guide to future performance. Investors are advised to see Risk Disclosure Document to understand the risks associated before investing in the securities markets. Actual results may differ materially from those set forth in projections. Forward-looking statements are not predictions and may be subject to change without notice.
