Sub: Press Release - Schaeffler India Expands its Large Size Industrial Bearings Portfolio with Made-in-India Spherical Roller Bearings, Cast Steel Housings and Accessories

01/08/2025

Dear Sirs,

Phone: +912068198464

With reference to the captioned matter, a Press Release is enclosed herewith.

Kindly take the same on your records.

Thanking you,

Yours faithfully,

For **Schaeffler India Limited**

Ashish Tiwari,

VP - Legal & Company Secretary

Encl.: As above

Schaeffler India Expands its Large Size Industrial Bearings Portfolio with Made-in-India Spherical Roller Bearings, Cast Steel Housings and Accessories

Pune, India | 01 August 2025 – Schaeffler India, a leading motion technology company, has further strengthened its localization commitment by widening the existing industrial portfolio with inclusion of Made-in-India large size Spherical Roller Bearings (SRBs), Cast Steel Housings, and accessories. In continuation to maximizing our localization efforts, these bearings are manufactured at Schaeffler India's advanced manufacturing facility in Savli, Gujarat.

This launch marks a significant expansion of the company's industrial portfolio for heavy-duty applications across core sectors like Steel, Cement, Mining, Power Plants and Pulp & Paper.

The current product program from India will target Spherical Roller Bearings upto outer diameters ≤ 720 mm, across series 222, 223, 230, 231, 240, and 241. Manufactured with X-life quality standards, the SRBs offer higher dynamic and static load ratings, improved performance, reduced friction, and extended service life.

Complementing the bearings portfolio, the company has also introduced large-size Cast Steel Housings, Adapter, Withdrawal & Hydraulic Sleeves that now offer the OEMs and Consultants to choose the complete portfolio from Schaeffler. The Housings are designed to provide superior strength and durability under extreme operating conditions. Additional design features like advanced sealing, internal lubrication groove, provision for mounting vibration & temperature sensors and auto-lubricators enable enhanced performance, reliability, and ease of maintenance.

On the announcement, Mr. Seshan Iyer, President- Bearings and Industrial Solutions stated, *"This launch reflects Schaeffler's commitment to Make-in-India & our continued focus on manufacturing excellence combined with local engineering and Research & Development capability. By localizing the manufacturing of these critical components, we are making our solutions more accessible, economical, and responsive to the needs of Indian industry."*

"As the demand for high-quality, value-driven solutions grows, we are proud to bring our global expertise to India and strengthen our ability to serve our customers faster and better."

The complete solution suite includes bearings, housings, adapter and withdrawal sleeves, advanced sealing solutions, lubricants, and condition monitoring systems—positioning

Schaeffler as a trusted, single-window partner for motion solutions. These new products are set to benefit key industrial sectors in the heavy industry supporting applications including conveyors, stacker reclaimers, gearboxes, crushers, and pulping systems.

Schaeffler India's continued investment in localized manufacturing and application engineering capabilities is aligned with the Government of India's "Make in India" initiative and reflects the company's longstanding commitment to supporting the evolving needs of Indian industry with future-ready motion technologies.

Schaeffler Group – We pioneer motion

The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for over 75 years. With innovative technologies, products, and services for electric mobility, CO₂-efficient drives, chassis solutions, and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. Schaeffler describes its comprehensive range of products and services by means of eight product families: from bearing solutions and all types of linear guidance systems through to repair and monitoring services. With around 120,000 employees and more than 250 locations in 55 countries, Schaeffler is one of the world's largest family-owned companies and ranks among Germany's most innovative companies.

Schaeffler India Limited

Schaeffler India brings a 75-year global legacy of innovation in motion technology to the Indian market, offering precision engineering solutions. As a trusted partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle, Schaeffler offers innovative technologies, products, and solutions for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies. With five manufacturing plants in India (Pune, Savli, Maneja, Hosur and Shoolagiri), three R&D centers, seven sales offices, and a strong industrial and automotive aftermarket network, Schaeffler India ensures nationwide accessibility of products and solutions to its customers.

With renowned product brands and a comprehensive range of products and services in the mobility ecosystem by means of eight motion families: from bearing solutions and linear guidance systems through to repair and monitoring services, Schaeffler is committed to partnering with its customers across segments for their engineering and motion technology needs. With its presence in India for over 60 years and with a dedicated workforce of over 3,700 employees Schaeffler is a leading motion technology company in India.
