withdrawal/cancellation or suspension of licence/approval by the regulatory or licensing authority, with reasons for such action, estimated impact (monetary or otherwise) on the listed entity and penalty, if any;	Not applicable
period for which such approval/license is/was valid;	15 years from the date of issue of the license
Purpose of License	The company holds a license to manufacture Unmanned Helicopters (Unmanned Aerial Systems (UAS))and is currently engaged in the development of multiple UAS platforms. In addition, the company is collaborating with several domestic and international partners for the development of logistics and delivery UAV systems as well as offensive/attack-class unmanned systems. These systems are progressing as per schedule and are expected to enter field trials within the next two quarters. The company holds a license to manufacture Inertial Navigation Systems (INS) and is presently engaged in the development of multiple navigation solutions. In parallel, the company is collaborating with selected domestic and international partners to accelerate technology development and subsystem integration. To support these activities, the company has initiated procurement of critical test and calibration equipment required for the evaluation of advanced navigational systems. The product portfolio under development includes: • MEMS-based Inertial Navigation Systems • Fiber Optic Gyro (FOG) based Navigation Systems • Ring Laser Gyro (RLG) based Navigation Systems
