Tata Power Commissions 400 / 220 kV TP Jalpura Khurja Transmission line and Substation at Greater Noida, Strengthening Uttar Pradesh and Northern Grid with 1,000 MVA Transformation Capacity

National, January 9, 2026: The Tata Power Company Limited (Tata Power) has successfully commissioned the 400 / 220 kV Metro Depot Substation and associated transmission lines, a critical linear infrastructure project, that has enabled addition of 1,000 MVA transformation capacity to meet the growing load demand in and around Greater Noida and NCR region. Additionally, surplus power from the system will be fed into the Northern Grid, supporting power demand across other northern states.

This intra-state transmission system has been executed under TP Jalpura Khurja Transmission Limited (TPJKPTL) (Formerly known as Jalpura Khurja Power Transmission Limited), a wholly owned subsidiary of Tata Power, and marks the first milestone under the Jalpura-Khurja TBCB project.

The project's on-time commissioning underscores Tata Power's excellence in precision-driven execution, and sustainable infrastructure development.

With this addition, Tata Power's transmission portfolio now stands at 7,047 circuit kilometres of lines operational and under execution across India, further reinforcing the company's role in strengthening the nation's electricity transmission network.

About Tata Power:

The Tata Power Company Limited, a leading integrated power company and a part of the Tata Group, India's largest multinational business conglomerate, owns a diversified portfolio of 15.9 GW. This portfolio spans the entire power value chain, from renewable and conventional energy generation to transmission, distribution, trading, storage solutions, and solar cell and module manufacturing. As a pioneer in India's clean energy transition, Tata Power has 7.0 GW of clean energy generation, constituting 44% of its total capacity. Committed to achieving Net Zero by 2045, Tata Power has successfully partnered with public and private entities across India's generation, transmission, and distribution sectors, serving ~13 million customers nationwide.
