Vitreous Alliance Chooses Aurionpro to Launch Secure Omnichannel Payments at Scale

Cloud-native, API-first payments infrastructure reinforces Aurionpro's position as the platform of choice for U.S. fintechs

Mumbai / Austin – January 23, 2026: Aurionpro, an enterprise technology leader, today announced that Vitreous Alliance, LLC, a leading provider of retail POS and payment services in the U.S., has selected Aurionpro to expand beyond traditional in-store transactions and enable faster, more transparent, and secure payments across multiple channels.

The Aurionpro Payments suite is purpose-built for banks, fintechs, and PSPs. With a cloud-native foundation, modular API-first design, and built-in support for surcharging and dual pricing, it simplifies compliance and integration while unifying multiple payment methods and payment rails in a single environment.

Key capabilities of the solution

- High-Volume, Cloud-Native Performance:** Engineered for enterprise-scale transaction processing, ensuring reliability and speed during peak demand.
- Fully White-Labeled Solutions:** Enables partners to maintain brand control with private label hosted forms, embeddable payment widgets, and comprehensive mobile SDKs.
- Simplified Compliance & Security:** Reduces risk and streamlines audits with a PCI DSS-certified framework, network tokenization, and comprehensive security features built-in.
- Advanced Pricing and Revenue Controls:** Provides the flexibility to implement sophisticated pricing models, including surcharging and dual pricing, to optimize revenue and navigate complex regulations.
- Open API for Seamless Integration:** An API-first architecture designed to connect effortlessly with CRMs, ERPs, and other third-party systems, creating a unified commercial ecosystem.

For Vitreous, this means faster merchant onboarding, stronger payments control, and a scalable path into new verticals.

“Aurionpro gives us the flexibility to grow with the market,” said **Rainier Cendaña, CEO and Co-Founder of Vitreous Alliance**. “We needed more payment channels, stronger control over payment terminals, and seamless cloud integration with our existing products using our own customized platform iteration provided by Aurionpro. By working closely with a trusted and respected partner like Aurionpro, their platform has advanced our capabilities in our current suite of solutions, including advanced features in the next era of embedded payments, while meeting critical timelines and leveraging a proven solution customized to our needs, and ultimately helping us launch faster in our objectives.”

Aurionpro’s experience integrating with external partner systems helped accelerate Vitreous Alliance’s go-to-market timeline for add-on features to its growing line of POS solutions across multiple industry channels, including advancement in next-generation embedded payments.

“In today’s environment, being fast is table stakes. What sets you apart is how responsibly you operate at scale,” commented **Raj Biyani, General Manager, Aurionpro**. “This platform reflects our approach to payments with purpose, where efficiency, compliance, and customer trust are built in from day one.”

About Vitreous Alliance, LLC

Vitreous Alliance, LLC is the parent company behind Retailz POS, Patel Processing, PtechPOS, and Vitreous Pay, a collective of fintech and merchant service brands delivering innovative, seamless, state-of-the-art solutions for businesses across the U.S. from advanced, scalable point-of-sale systems and processing platforms, to merchant onboarding and dedicated multi-lingual support. Vitreous unifies the strengths of each brand under one shared vision: to simplify commerce, accelerate growth, and build lasting value for merchants at every stage.
