

## Press Release

### ***Launches Automotive Water Pump — Expands Product Portfolio Beyond Clutches***

**5<sup>th</sup> June, 2025 Setco Automotive Limited (BSE: 505075, NSE: SETCO)**, one of India's largest manufacturers of MHCV clutches and a premium supplier of truck products, is proud to announce the successful launch of its latest innovated product - the Automotive Water Pump. This marks a strategic expansion of Setco's product portfolio into the critical engine cooling segment, reinforcing its commitment to innovation, reliability, and efficient engineering.

Designed to serve the diverse needs of Light Commercial Vehicles (LCVs) and MHCVs, Setco's Automotive Water Pump delivers exceptional performance under demanding conditions.

#### **Key features include**

- Superior Long-Life Seal Integrity
- High Load-Bearing Capability
- Enhanced NVH (Noise, Vibration & Harshness) Isolation Performance
- Thermal-Optimized Impeller Material Grade

Engineered for durability and efficiency, the product is manufactured with state-of-the-art materials and precision, ensuring optimal coolant circulation and thermal stability across a wide range of operating environments.

#### **Management Comment:**

Commenting on this development, **Mr. Harish Sheth, Chairman & MD, Setco Automotive Ltd.** said, *"This launch is a significant step in our journey to diversify and deepen our presence across the auto component value chain. Our new Automotive Water Pump reflects the same quality, performance, and engineering excellence that has made Setco the benchmark in the clutch segment. With this product, we aim to deliver superior engine protection and performance, while strengthening our relationships with OEMs and aftermarket customers alike."*

#### **About Setco Automotive Limited:**

Setco Automotive Ltd, established in 1982, is a prominent manufacturer of M&HCV clutches and a premium supplier of truck products. The company has a diversified product portfolio within the commercial vehicle segment, offering brake linings, clutches, flywheels, flywheel ring gear, lubricants, clutch release bearing assemblies, center support bearing, coolant and universal joint cross. The company has its subsidiary for advanced machined castings as Lavacast Pvt Ltd.

The company has 5 manufacturing units with a wide product range of 100+ products. The company's Research and Development facilities in India and the UK play a vital role in fulfilling customer demands across diverse geographies and operational cycles. These facilities are equipped with advanced software and tools for drafting, 3D modelling, product lifecycle management, project management, clutch testing and analysis, and sample development amongst other.

The Company design and manufacture premier clutches, catering to a diverse global market with a presence in US, UK, SAARC, Middle East etc.
