Immediate Press Release

21st November 2025

Servotech Renewable Secures ₹16.31 Crore Grid-Connected Solar Project from Railway Energy Management Company Ltd.

New Delhi, 21st November 2025: Servotech Renewable Power System Ltd. (NSE: SERVOTECH), India's leading manufacturer of advanced solar and clean-energy solutions, has been awarded a **₹16.31 crore** ground mounted and rooftop on-grid solar project by **Railway Energy Management Company Limited (REMCL)**, a Joint Venture of **BITES Ltd. and Ministry of Railways**.

As part of the contract, Servotech Renewable will undertake the Design, Engineering, Supply, Installation, Testing, and Commissioning of both ground-mounted and rooftop solar power plants of multiple capacities, at the **Dedicated Freight Corridor Corporation of India Limited (DFCCIL)** Complex in Noida. Additionally, the project includes 10 years of comprehensive Operation & Maintenance, ensuring consistent power generation and long-term system reliability. This achievement further strengthens Servotech's footprint in India's fast-growing railway and logistics infrastructure sector.

These solar installations will significantly support REMCL and DFCCIL's goal of integrating renewable energy into core operational infrastructure, reducing dependence on conventional power sources, optimizing energy costs, and advancing India's mission toward clean and sustainable industrial growth.

Commenting on the project, Sarika Bhatia, Whole-Time Director, Servotech Renewable Power System Ltd., said, "We are proud to work with REMCL on this solar project. Infrastructure like DFCCIL forms the backbone of India's logistics and freight movement, and integrating solar energy into such high-impact facilities is a major step toward national decarbonization goals. This order highlights Servotech's engineering strength, execution capability, and consistent reliability in delivering solar solutions for large-scale infrastructure. We remain

Disclaimer:

This press release contains "forward- looking statements" that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are to different degrees, uncertain. For us, uncertainties arise from the behavior of financial, software and real estate industry, from future integration of businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different from those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
