Sub: Press Release - Schaeffler India showcases innovative industrial solutions at International Railway Equipment Exhibition (IREE) 2025

15/10/2025

Dear Sirs,

With reference to the captioned matter, a Press Release is enclosed herewith.

Phone: +912068198464

Kindly take the same on your records.

Thanking you,

Yours faithfully,

For **Schaeffler India Limited**

Ashish Tiwari,

VP - Legal & Company Secretary

Encl.: As above

Schaeffler India showcases innovative industrial solutions at International Railway Equipment Exhibition (IREE) 2025

Reinforcing commitment to Atmanirbhar Bharat with innovative rail solutions at IREE 2025

Pune, India | 15 October 2025 | Schaeffler India, a leading motion technology company, will showcase its latest portfolio of advanced bearing solutions and industrial innovations for the railway sector at the **15th International Railway Equipment Exhibition (IREE) 2025**. The exhibition will be held from October 15–17, 2025 at Pragati Maidan, New Delhi. Visitors can experience Schaeffler’s solutions at **Hall – 3, Booth – 3.30**.

Through its participation, Schaeffler India as a trusted technology partner, aims to strengthen its presence in the Indian railway market, highlighting its localization efforts in alignment with the Government of India’s “Atmanirbhar Bharat” vision, and engage with key stakeholders to support the nation’s expanding rail infrastructure.

The booth will feature Schaeffler’s wide range of cutting-edge railway and industrial solutions, including:

- **TAROL Bearings:** Compact, ready-to-mount tapered roller bearing units for railway axle boxes, ensuring durability and reduced maintenance.
- **CRU Bearings:** Cylindrical Roller Bearing Unit for Locomotive Axle offering high reliability and simplified installation.
- **Current Insulated Bearings:** Bearings with special coatings to prevent electrical damage, widely used in motors and generators.
- **Housings:** Robust bearing housings to support the bearings adequately and offering longer service life.
- **Lubrication Greases:** Specialized greases that reduce friction, protect against wear and extend service intervals.
- **Class C/D/K Seals:** Advanced sealing solutions for effective contamination protection.
- **Condition Monitoring Display Kit:** Advanced condition monitoring solutions for bearings, aiding predictive maintenance.

The booth will also see the presence of senior global and Indian leadership, including **Dr. Michael Holzapfel – Global Sector Lead Rail Bearings & Industrial Solutions, Schaeffler** and **Mr. Seshan Iyer – President, Bearings & Industrial Solutions, Schaeffler India**.

Speaking about Schaeffler's participation, **Harsha Kadam, CEO & Managing Director, Schaeffler India**, said:

"Schaeffler is proud to be a trusted partner for the rail sector worldwide. With expanded manufacturing and condition monitoring capabilities in India, we are positioned to support the evolving needs of operators and OEMs in one of the most dynamic rail markets globally."

Mr. Seshan Iyer, President, Bearings & Industrial Solutions, Schaeffler India, added:

"Railways continue to be a critical growth driver in India's infrastructure development. At Schaeffler, we are proud to contribute with advanced, localized, and future-ready solutions that improve reliability, efficiency, and safety. Our participation at IREE 2025 reflects our commitment to supporting India's vision of building world-class rail networks powered by innovation and technology."

Schaeffler India has been continuously investing in strengthening its capabilities for the railway sector. Recently, the company commissioned a state-of-the-art TAROL heat treatment facility at its Maneja Plant, developed to meet the evolving requirements of the rail industry and contribute to India's infrastructure ambitions.

Schaeffler Group – We pioneer motion

The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for over 75 years. With innovative technologies, products, and services for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. Schaeffler describes its comprehensive range of products and services in the mobility ecosystem by means of eight product families: From bearing solutions and all types of linear guidance systems through to repair and monitoring services. Schaeffler is with around 120,000 employees and more than 250 locations in 55 countries, one of the world's largest family-owned companies and one of Germany's most innovative companies.

Schaeffler India Limited

Schaeffler India brings a 75-year global legacy of innovation in motion technology to the Indian market, offering precision engineering solutions. As a trusted partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle, Schaeffler offers innovative technologies, products, and solutions for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies. With five manufacturing plants in India (Pune, Savli, Maneja, Hosur and Shoolagiri), three R&D centers, seven sales offices, and a strong industrial and automotive aftermarket network, Schaeffler India ensures nationwide accessibility of products and solutions to its customers.

With renowned product brands and a comprehensive range of products and services in the mobility ecosystem by means of eight motion families: from bearing solutions and linear guidance systems through to repair and monitoring services, Schaeffler is committed to partnering with its customers across segments for their engineering and motion technology needs. With its presence in India for over 60 years and with a dedicated workforce of over 3,700 employees Schaeffler is a leading motion technology company in India. Explore more - www.schaeffler.co.in
