Dear Sir/Madam,

Sub: Press Release on Kellton Partners with UNFPA for Next-Generation AI Solutions

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, (“**SEBI Listing Regulations**”), we wish to inform you that our Company has been chosen by the **United Nations Population Fund (UNFPA)** to build next-generation AI solutions for global impact.

The contract marks a significant milestone in Kellton’s journey, reflecting our commitment to leveraging Artificial Intelligence for social good and reinforcing our reputation as a trusted technology partner for international organizations.

This strategic win is expected to accelerate Kellton’s growth trajectory, significantly augment our presence in global markets, and add value to our order book and financial performance.

We kindly request you to take this intimation on record.

Thanking You,

***For and on behalf of
Kellton Tech Solutions Limited***

United Nations Population Fund Chooses Kellton to Build Next-Generation AI Solutions for Global Impact

Bringing together AI innovation and humanitarian vision to drive inclusive, data-driven transformation across UNFPA's global programs

Gurgaon, October 30, 2025, Kellton, an AI-first, innovation-led digital transformation company, was selected by the United Nations Population Fund (UNFPA) to design and deliver Generative AI-driven applications that strengthen digital innovation and human-centered transformation across UNFPA's global programs.

This collaboration marks a pivotal milestone in Kellton's commitment to leveraging Artificial Intelligence for social impact, enabling one of the world's foremost development organizations to accelerate progress toward the UN Sustainable Development Goals (SDGs). By integrating responsible AI practices with UNFPA's vision of ensuring health, rights, and well-being for all, Kellton continues to demonstrate its responsibility to technology that drives purpose and inclusion.

"Our collaboration with UNFPA symbolizes how innovation can drive empathy and impact at a global scale," said Karanjit Singh, CEO, Kellton. "By combining our AI engineering strength with UNFPA's humanitarian vision, we're building solutions that not only transform digital operations but also make technology more inclusive, transparent, and meaningful."

This engagement strengthens Kellton's position as a trusted AI and digital transformation partner for global institutions and the public sector, reinforcing its dedication to ethical, secure, and sustainable AI ecosystems. Through this collaboration, Kellton continues to shape the future of responsible AI, building solutions that empower organizations to elevate impact and reimagine the future responsibly.

About Kellton:

Kellton Tech Solutions Ltd. is a publicly listed global leader in AI and digital transformation, founded on the belief in Infinite Possibilities with Technologies. Headquartered in Hyderabad, India, and supported by more than 1,800 employees across delivery centers and offices in the United States, Europe, and the Asia-Pacific region, Kellton serves a diverse portfolio of clients across industries—including BFSI, manufacturing, hospitality, retail, healthcare, energy, and the public sector. With deep expertise in Agentic AI, enterprise application modernization, cloud engineering, data and analytics, IoT, and process automation, Kellton delivers transformative solutions powered by innovation. Its proprietary platforms and services have earned recognition from leading analysts: Kellton has been named a Leader in Zinnov Zones for ER&D Digital Engineering and Experience Engineering and recognized by ISG and Avasant for its SAP services.
