AXISCADES Technologies Ltd. and Cilas S.A. Announce Strategic Defense Partnership

Bengaluru, India / Orléans, France – 31st October, 2025: AXISCADES Technologies Limited (BSE: 532395 | NSE: AXISCADES), a leading Indian defense technology solutions provider, and Cilas S.A., the French expert in lasers for high-value fields, have officially signed a Memorandum of Understanding (MoU) to jointly promote advanced Counter-Unmanned Aerial System (C-UAS) technologies to the Indian Forces. At the heart of this partnership is the introduction of Cilas' cutting-edge high-energy laser weapon system, Helma-P, through close cooperation and a robust working relationship.

Under the terms of the MoU, AXISCADES will design the overall system architecture tailored to the specific requirements of the Indian Army. Both partners will focus on the co-development and integration of a vehicle-mounted C-UAS solution, in which the powerful Helma-P laser will be seamlessly incorporated into AXISCADES' state-of-the-art command and control system.

Dr. Sampath Ravinarayanan, Founder, Chairman and Managing Director of AXISCADES, commented, *"Cilas' Helma-P is recognized globally as one of the foremost hard-kill options, having successfully deployed in vital operations for NATO, during the Olympic games in Paris, and the French Navy. We are confident that such a proven, state-of-the-art solution is crucial for strengthening India's defense capabilities. In alignment with the Atmanirbhar Bharat (self-reliance) initiative, we are committed to locally integrate the Cilas Helma-P solution in our indigenous C2 and onto an Indian platform. AXISCADES is also committed to localize the necessary maintenance equipment and take part into the manufacturing of Helma-P, in order to ensure its production and sustainability within India."*

Mr. Oliver Prat, CEO, Cilas said *"AXISCADES' expertise in engineering is well-known in the French defense ecosystem, and they have been among the precursors in India to enter anti-drone warfare, with impressive orders from Army. Thus, it is with great pleasure that Cilas is teaming up with AXISCADES to explore how to serve the dynamic Indian market. Aware of the importance of self-reliance, Cilas will redeem the trust of Indian Army by entering a strong and long-lasting collaboration with its partner. Let's make it!"*

This agreement signifies a significant step forward in fostering joint innovation, and deeper defense cooperation between India and France. It underscores both companies' shared vision of delivering world-class security solutions and supporting the modernization of Indian defense forces.

About AXISCADES Technologies Limited:

AXISCADES is a leading, end-to-end technology, product and solutions provider aiding the creation of innovative, sustainable, and safer products worldwide in the Aerospace, Defense and ESI domains. Headquartered in Bangalore with subsidiaries and offices worldwide, in France, Germany, Denmark, USA, and Canada. AXISCADES has a diverse team of over 3000+ professionals working across 17 locations across globe, striving to reduce the program risk and time to market.

AXISCADES has long term relationship with Defense Forces, MoD, Defense Labs and PSUs along with global OEMs. AXISCADES possesses deep domain experience in Weapon Systems, Avionics, Radar, Electronic Warfare, C4I2, Drones, Anti-Drone Systems, Test Solutions, GSE and GHE. We have executed several innovative in-house projects and partnered solutions for Land, Naval, Aerospace and Homeland Security.

The comprehensive portfolio of solutions covers the complete product development lifecycle from concept evaluation to manufacturing support and certification.
