Immediate Press Release

16th September 2025

Servotech Renewable Power System Ltd. Bags 1.2 MW Rooftop Solar Project from Northern Railway Moradabad Division

New Delhi, September 16, 2025: Servotech Renewable Power System Ltd. (NSE: SERVOTECH), India's leading solar solutions manufacturer, is proud to announce that it has bagged a **1.2 MW grid-connected rooftop solar project from Northern Railway Moradabad Division**. This project marks yet another milestone in Servotech's journey of driving India's clean energy transition.

As part of this contract, Servotech will carry out end-to-end execution of on-grid rooftop solar PV systems. This includes the **design, manufacturing, supply, installation, testing, and commissioning of solar plants** of varying capacities across multiple sites within the Moradabad Division. This initiative supports Indian Railways' ambitious sustainability vision to reduce reliance on conventional energy and cut carbon emissions through large-scale renewable energy integration.

Speaking on the achievement, Sarika Bhatia, Director, Servotech Renewable Power System Ltd. said, "This project reinforces Servotech's position as a trusted partner in India's renewable energy sector. We've already set our foot across multiple railway divisions by securing projects in Northwest, Northeast, East Coast, and Northern Railways. It's encouraging to see Indian Railways repeatedly placing its trust in Servotech, reaffirming confidence in our brand and project execution. We remain committed to delivering cutting-edge solar solutions that exceed performance expectations while supporting Indian Railways' vision of sustainable and eco-friendly operations."

This contract reinforces Servotech's growing presence in the public sector, showcasing its proven expertise in executing large-scale solar projects with precision, efficiency, and global standards. With this achievement, Servotech advances its mission of driving India's energy independence while actively contributing to the nation's transition toward a greener and more resilient future."
