HATHWAY CABLE & DATACOM

Broadband tepid; Phase III monetisation aids margin

India Equity Research | Media

Hathway Cable & Datacom's (Hathway) Q2FY18 revenue and EBITDA came in line with our estimates. Key positives: (i) subscription grew 6% QoQ, aided by Phase III digitisation (up INR3 QoQ); and (ii) net realisation in Phase III market stood at INR58 (INR55 in Q1FY18). Key negative was the mere 1.7% QoQ broadband business growth, which was restricted by lower broadband additions (30,000 versus 55,000-60,000 in past) and lower ARPU (down INR13 QoQ to INR717). Though enhanced competition from Jio in cable space (Jio app and feature phone) and wired broadband business is a concern, Phase III digitisation, value offerings to ring fence existing broadband consumers, cost initiatives in broadband business and benefits from Hathway Connect (prepaid & packaging) are key positives. Maintain 'BUY'.

Robust cable business

While activation revenue grew 7.0%, carriage revenue improved 5.0% in Q2FY18. Hathway has concluded all content deals with broadcasters and reported 2% QoQ content cost increase in Q2FY18. **EBITDA margin jumped ~200bps QoQ in cable business aided by monetisation in Phase II (net realisation up INR3 QoQ to INR98) and Phase III (net realisation up INR3 QoQ to INR58) areas.** The company expects Phase IV ARPUs to improve to INR60 from current INR41.

Q2FY18 conference call: Key takeaways

i) The company clocked >20% EBITDA margins in Phase I & II areas in cable business; ii) broadband ARPU will not increase for the next 18 months; iii) <u>monthly broadband</u> <u>churn 1.5%;</u> iv) bandwidth usage has catapulted 3x in past 3 years without cost increase; and v) Hathway will save INR500mn in broadband business in FY18 due to ongoing cost initiatives.

Outlook and valuations: Positive; maintain 'BUY'

Among MSOs, Hathway is well placed to capitalise on the digitisation opportunity. Hathway Connect will help Phase I & II ARPU growth. <u>Monetising Phase III areas is a key monitorable.</u> We maintain 'BUY/SP' with 11x FY19E EV/EBITDA target multiple for consolidated business (ex-GTPL), while GTPL is valued at market cap (20% holding discount). Our TP is INR43 (INR37 earlier). At CMP, stock trades at 16.6x FY18E and 11.2x FY19E EV/EBITDA.

Q2FY18 conference call: Key takeaways

Restructuring: The company has shifted its cable business to a wholly owned subsidiary HDPL. Due to Ind-AS, the company will not consolidate GTPL numbers.

Broadband ARPU

- Hathway is upgrading payment terms of consumers. Consumers are moving to longterm packs where the company gives value discount (25% value discount for 1 year pack). Hence, it impacted ARPU.
- The company is doing so to ring fence high ARPU customers.
- Delay recharges by 5-9 days also affected broadband revenue.
- Broadband ARPU will not increase for next 18 months.

Broadband subscribers

- Docsis subscribers: 0.58mn; MNE broadband subscribers: 50,000; GPON fiber subscribers: 70,000.
- 15,000 broadband additions in October.
- In places where Hathway has 20% broadband penetration, to target incremental subscribers the company is deploying GPON technology.
- Incremental capex is INR3,000 per customer. Incremental ARPU: 100per month per customer.
- The company will have 30 months payback.

Cable ARPU

• Hathway expects Phase IV ARPU to improve to INR60 from current level of INR41.

Cable business

- The company has > 20% EBITDA margins in Phase I and II areas.
- In past 3 years quarters, the company has started monetizing Phase III and IV areas.

GPON Technology

- The company does not incur electricity and network cost in GPON technology.
- Similarly, the company does not pay any rentals on GPON technology.
- Capex per GPON consumer has come down from INR8300 to INR7500.

Broadband churn

- Churn policy: If the subscriber is switched off for 30 days, it will count as churn.
- Monthly broadband churn: 1.5%.

Hathway Connect

• It helps stabilise consumer billing. LCO will able to manage the consumer billing properly.

- Collection efficiency will increase.
- Further, prepaid billings will improve cash flows.
- Hathway Connect helps in no leakages and hence ARPU will increase.

Cost initiatives

- The company will save INR500mn cost in broadband business due to ongoing cost initiatives in FY18.
- The company has already realised cost benefit of INR120mn in Q2FY18 in broadband business.

Other takeaways

- All content deals have been signed with broadcasters.
- Bandwidth usage increased by 3x in last 3 years without increasing cost.

Outlook and valuations: Positive; maintain 'BUY'

Hathway is the best-placed MSO to capitalise on the huge digitisation opportunity. Though high debt remains a concern, it is necessary for rapid seeding of boxes and increased penetration of Docsis 3.0. Currently, its digital subscriber base stands at 12.2mn. Key psoitive things to watch out for: i) Implementation of TV tariff order (currently in draft stage) will resolve the content cost problem; ii) benefits from *Hathway Connect* will help Phase I and II ARPU growth; and iii) Phase III and IV digitisation will resolve the under subscriber issue and increase ARPU in Phase III and IV markets.

Compared to DEN, Hathway has a sizeable primary subscriber base, well-entrenched broadband operations and has seeded the highest number of boxes amongst MSOs. It has substantial presence in higher ARPU cities in Phase 1 and 2. Also, we like the company's strategy of increasing investment in the high-margin broadband business, which has started to yield returns.

The company has undergone restructuring in Q1FY18. The cable business is shifted to wholly owned subsidiary Hathway Digital Private Limited (HDPL). Further, due to IND AS, the company will not consolidate GTPL numbers. Therefore, the standalone business reflects Hathway broadband financials while consolidated business reflects Hathway broadband & cable financials

We maintain our target EV/EBITDA of 11x to FY19E EBITDA to the consolidated business (ex-GTPL) while valuing GTPL at current market cap. We give 20% holding dicsount to GTPL; target price is pegged at INR43 (earlier INR37). We maintain **'BUY/Sector Performer'**.

Company Description

Hathway is one the largest MSOs as well as one of the leading cable broadband service providers in India. Having entered the cable and entertainment business in 1995, the company offers three broad services—analog cable television, digital cable television and broadband internet. Its key promoter is the Rajan Raheja Group with a ~47.5% stake. While Hathway currently provides analog TV services in 140 cities, it is the largest digital cable TV provider in India. It is also the first cable TV service provider to offer broadband services in 19 cities. The company has bagged the 'Best Cable TV Operator of the Year' award by the Indian Television Awards eight times. Hathway has launched a channel Hathway Music (music channel).

Investment Theme

The compulsory digitisation mandate will lead to digitisation of cable TV services across India over the next few years. Converting its existing analog subscriber base on the digital platform will provide Hathway a huge opportunity to increase subscription revenue due to lower under-declaration and higher ARPU. Hathway's digitisation progress is largely on track and the company is looking to build on to its broadband subscriber base as well. Any acceleration of the gross billing process in Phase 1 and Phase 2 would be a huge positive. Amongst MSOs, Hathway also enjoys the first mover advantage in the broadband business

Key Risks

- Delay in consumer billing
- Significant increase in content cost
- DTH players can be at an advantage in Phase 3 and Phase 4
- Loss of subscribers if LCOs shift loyalties
