Forex loss hits margins & profitability...

- Cox and Kings' reported a mixed set of numbers. Revenues increased 15.8% YoY to ₹ 817.3 crore (vs. I-direct estimate of ₹ 813 crore) mainly led by 41.1% YoY growth in the Meininger segment & 22.6% YoY growth in Leisure - international
- However, EBITDA declined 20.2% YoY to ₹ 297.9 crore (below I-direct estimate of ₹ 380.8 crore) mainly led by forex loss of ₹ 91 crore (vs. forex gain of ₹ 35 crore in Q1FY18). Excluding the forex impact, the company reported EBITDA growth of 15% YoY to ₹ 389 crore with strong rebound in operating margin of leisure international segment (i.e. up from 20.8% last year to 38.4%)
- The de-merger process of forex division (asset base: over ₹ 200 crore as of FY17, RoA: 13% & RoE: 37%) has entered the last phase

Domestic business continues to remain robust...

During FY18, the company's leisure India revenues increased 12.4% YoY mainly on the back of improving domestic spend and higher growth in foreign tourist arrival. Further, consumer sentiments continue to remain healthy as witnessed in air passenger traffic growth and improved hotel occupancy. In addition, with improved tourism measures by the government, we expect domestic leisure business to continue to outperform in coming years. Hence, we expect leisure revenues to grow at a CAGR of 11% in FY18-20E.

International revenues poised for growth...

Bed capacity addition (up 42.8% YoY in FY18) has led the company to report 29.6% YoY increase in Meininger revenues in FY18. Further, in the coming years, the company plans to have a bed capacity of 15,000 at Meininger by FY19 and 25,000 by the end of FY22 from a bed capacity of 10,400 (i.e. a CAGR of 24% in FY18-22). As a result, we expect Meininger revenues to drive a substantial part of growth in the international business. In the education business, the company plans to add 830 beds (560 beds added in FY18), which will also boost international revenues. Further, various divestments of subsidiaries in leisure international is likely to positively impact the company's EBITDA margins.

Working capital requirement continues to remain higher...

Till FY16, debt levels remained elevated. In FY16, the debt has increased to ₹ 4,101 crore from ₹ 3,456.5 crore in FY15. Although the company had repaid ₹ 600 crore in FY17, debt levels are back to ₹ 3,907 crore in FY18 led by higher working capital. Further, considering higher capex in education business, we believe it will be difficult for the company to reduce debt in FY19E vs. guided debt reduction of ₹ 180-200 crore each year.

Healthy revenue growth; leverage near term concern; maintain HOLD

We expect the company's domestic leisure revenues to grow at a CAGR of 11% in FY18-20E mainly led by improving domestic spend and higher growth in foreign tourist arrivals. Further, we expect international revenues to grow at a healthy pace mainly led by Meininger. The company plans to increase bed capacity at Meininger at a CAGR of 28% over FY18-22E. Further, de-merger of its forex segment will drive the value for its investors over the long term. Consequently, we remain positive on the stock from a long term perspective. However, increase in working capital requirement is expected to keep debt at elevated levels. Hence, we maintain our **HOLD** rating on the stock with a target price of ₹ 225 (i.e. valuing at 13.5x FY20E EPS & 6x EV/EBITDA).

Company Analysis

Domestic tourism outlook remains healthy

The company has witnessed healthy growth (up 12% YoY in FY18) in its domestic business. The consumer sentiments continue to remain healthy as witnessed in air passenger traffic growth, foreign tourist arrivals data led by improvement in purchasing power. Further, with improved macro economic environment, we expect the company's domestic business to continue to perform well, going forward. In addition, C&K should be a key beneficiary of any positive policy announcements (visa on arrival) given the new government's thrust on tourism.

International business to improve, going forward...

■ Leisure-India

Bed capacity addition (up 42.8% YoY in FY18) has led to the company reporting 29.6% YoY increase in Meininger revenues in FY18. Further, over the coming years the company plans to have a bed capacity of 25,000 at Meininger by the end of FY22 from a bed capacity of 10,461 in FY18 (i.e. a CAGR of 24% in FY18-22). As a result, we expect Meininger revenues to drive substantial part of growth in international business. In addition, in the education business, the company plans to add 830 beds (560 beds added in FY18) which will also boost international revenues. Further, various divestments of subsidiaries in leisure international (like Explore worldwide, Late rooms and Superbreak) are likely to positively impact the company's EBITDA margins.

Expect revenue CAGR of 13.3% during FY18-20E

We expect net sales to grow at a CAGR of 13.3% during FY18-20E. The major revenue growth driver would be **leisure India** (healthy domestic outlook), **Leisure international** (low base and improved growth in Dubai and Australia) and **Meininger** (based on higher bed capacity addition).

Margins to improve led by improvement in demand

Adjusted for forex, the EBITDA margins were at 36.9%, which we believe will improve to 37.6% in FY20E mainly led by improving revenue growth and cost efficiency.

Working capital requirement continues to remain higher....

Till FY16, debt levels remained elevated. In FY16, the debt increased to ₹ 4,101 crore from ₹ 3,456.5 crore in FY15. Although the company had repaid ₹ 600 crore in FY17, the debt levels are back to ₹ 3,907 crore in FY18 led by higher working capital. Further, considering higher capex in education business we believe it will be difficult for the company to reduce debt in FY19E vs. guided debt reduction of ₹ 180-200 crore each year.

Outlook and valuations

We expect the company's domestic leisure revenues to grow at a CAGR of 11% over FY18-20E mainly led by improving domestic spend and higher growth in foreign tourist arrivals. Further, we expect International revenues to grow at a healthy pace mainly led by Meininger. The company plans to increase bed capacity at Meininger at a CAGR of 28% over FY18-22E. Further, de-merger of its forex segment will drive the value for its investors over the long term. Consequently, we remain positive on the stock from a long term perspective. However, increase in working capital requirement is expected to keep debt at elevated levels. Hence we maintain our **HOLD** rating on the stock with a target price of ₹ 225 (i.e. valuing at 13.5x FY20E EPS & 6x EV/EBITDA).
