#### Stock performance (one-year)

# CMP: INR327 TP: INR390 (+19%) Rapid scaling up of margin-accretive new businesses

Indian Hotel's (IH's) new and re-imagined businesses Ama Stays, Qmin, Chambers, and Management contracts are expected to scale up rapidly on the lower base and high growth runway. These businesses are margin accretive with higher margin flowthrough, thereby driving up the RoCE. The new business is expected to contribute ~26% to the company's operating profits by FY25.

- Amã stay portfolio is expected to grow 5x in the next two-three years with robust revenue growth, driven by the thriving industry and synergy with the group businesses. Further, it is aided by the company's asset light model. The business has higher a flowthrough of ~60-65%.
- IH is establishing its Qmin brand across verticals of food delivery/QSR/ Restaurants. Growing food delivery industry (~30% CAGR) and Qminization of Ginger (from 8 to ~90 hotels) is expected to drive the growth ahead.
- Member additions are expected to drive the incremental growth for Chambers (initiation fees forms ~50% of Chamber's revenue in 1HFY23). Also, the addition of new clubs such as the one planned in New York and Bengaluru will aid in growing the company's membership base.
- While IH's managed room portfolio stood at ~46% (including pipeline) in 1HFY23, it is expected to reach ~50% by FY25/26. The increasing inventory under management contract is margin as well as RoCE accretive for the business.

#### Amã stay - Rapid expansion with an asset light model

- Amã stay has a portfolio of more than 100 homestays as on 2QFY23 with 57 in operations, while others are in various phases of development/ licensing.
  Management expects to increase the portfolio to ~500 homestays by FY25/26.
- The business operates on an asset light model with IH charging ~18% of topline from the owners of the property (15% management fees and 3% marketing and reimbursement fees).
- Ama stay, located within a two-hour driving distance from company's hotels witnesses' operational efficiency and low operating cost resulting in a ~60-65% flow through rate for the business. Ama stay is expected to register revenue CAGR of ~123% over FY22-FY25.
- As per industry reports, India still needs to add ~2.5 million rooms in the homestay segment to keep up with the increasing demand. Further, a precovid survey by online travel aggregator 'MakeMyTrip' indicates that one in every two Indian travelers (especially millennials) is looking to book an alternative accommodation such as villas/homestays.
- Thus, the increasing demand and limited supply in the industry will aid IH in growing its revenue, led by rapid additions of properties.
- Stay Vista (over 500 holiday homes across 50 destinations; focused on luxury villa segment) and Saffron stays (over 250 homes) are some of the key players operating in the homestay management segment.
- Synergy with the existing group businesses has provided a strong competitive advantage to the company while sustaining its asset light model. (mentioned in detail below)

#### **Qmin - Expansion across verticals to drive growth**

- Qmin is establishing its brand by expanding its businesses into restaurants and cafés (Qmin Café/Qmin Shop/Qmin food trucks) from just being a food delivery business.
- Qmin has crossed a gross merchandise value (GMV) of ~INR1.25b since inception (Jun'20), including ~INR0.66b in FY22 alone. The Indian online food delivery market is expected to register a CAGR of 30% to ~INR1.8t by CY27 from ~INR411b in CY21 (as per 'researchandmarkets'), leading to huge growth runway in the segment.
- Further, Qmin has expanded its offline presence to 25 outlets, including 11 outlets which were taken over from 'Tata Cha' and eight outlets opened in Ginger hotels.
- Also, the Qmin app is accessible from nine major nations, allowing people to send/gift the Qmin meals across major cities in India.
- Qminization of ginger (i.e., opening of Qmin restaurant in Ginger hotels) is expected to be a key driver for the offline segment. IH is planning to add more Ginger hotels, taking the total count to ~125 by FY25/26. Management expects ~90 of them to feature a Qmin restaurant, which along with other QSR outlets, will lead to a significant increase in Qmin outlets by FY25/26.
- Qmin is expected to register revenue CAGR of ~74% over FY22-FY25E.

#### Chambers - Revenues inching up on the back of member additions

- Chambers a premier exclusive business club operates eight clubs across various cities such as New Delhi, Mumbai, Kolkata, Chennai, Hyderabad, Dubai, and London. Further, two upcoming clubs are planned at New York and Bengaluru.
- Chambers has generated revenue of INR0.85b in FY22 (up 73% YoY and 35% from pre-covid levels, i.e., FY20). The revenue from the segment in 1HFY23 was ~INR0.5b (which is already 65% of FY22 revenue).
- The revenue for 1HFY23 consisted of INR0.26b of initiation fees and INR0.24b of renewal fees.
- The revenue from initiation fees is higher than the renewal fees clearly indicating the uptrend in revenue being driven by the addition of new members.
- Chambers has over 2,500 members as on 1HFY23, up from over 2,400 members in FY22.
- Management expects the segment to generate annual revenue of ~INR1.5b with over ~3,000 members by FY25/26.
- Chambers is expected to register CAGR of ~15% over FY22-FY25E.

#### Management contract – Margin and RoCE accretive segment

- IH has ~8,093 operational rooms under management contract as on Oct'22 (~38% of total operational rooms of IH). Considering the pipeline, managed share of portfolio stands at ~46%, up from 39% in pre-pandemic. Management expects this to reach ~50% by FY25/26
- Management contract fees for FY22 stood at ~INR2.3b, up from ~INR1.4b/INR2.1b in FY21/FY20, respectively. IH expects to generate ~INR4b of revenue from the segment by FY25/26. However, we expect revenue of ~INR5.5b by FY25.

- IH is focused on its managed portfolio with management expecting to add ~40-60 management contracts for every 10 new owned/leased hotels. Increasing share of management contracts is RoCE accretive as the segment operates with more than 75% EBIDTA flow through.
- IH is planning to add inventory of ~8,327 rooms by FY27, out of which, ~6,148 rooms (i.e., ~74% of the pipeline) are under management contract.
- Management fees are expected to register CAGR of ~33% over FY22-FY25E.

#### Valuation and view

- The new and re-imagined businesses are expected to provide incremental boost to IH's growth trajectory with their margin and ROCE accretive business model.

  Overall, the new and re-imagined business revenue is expected to register a CAGR of 50% over FY22-25E.
- Further, we expect the strong demand momentum witnessed in FY22 to continue in FY23-25E, led by a) a further improvement in ARR and occupancy rate due to favorable demand-supply dynamics; b) higher income from management contracts; and c) unlocking value by launching reimagined and new brands.
- We expect Revenue/EBITDA of 31%/79% over FY22-25E and reiterate our Buy rating with an SoTP-based TP of INR390 on FY25E EBITDA.

#### Ama Stays and Trails – a new concept of holidaying

## Synergy with existing businesses to provide strong competitive edge to Ama Stays and Trails

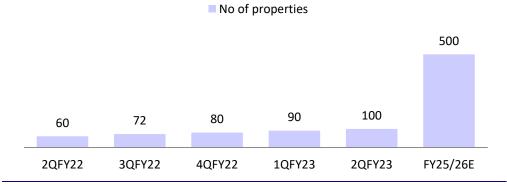

- IHCL launched Ama stay in CY19 with nine heritage bungalows in the coffee estates of Tata Coffee in Coorg and Chikmagalur. Since then, it has expanded across the country.
- The asset-light model of Ama allows the company to scale up quickly. It charges ~15% of topline as management fees and ~3% of topline as marketing and reimbursement fees.
- Ama stay not only relies on the strong brand association of IHCL but also its facilities. Almost all the bungalows of Ama stay are located within a two-hour driving distance from IHCL Hotels. Thus, the general manager of the closest hotel oversees the operations of the bungalows.
- Therefore, the low operating cost results in a ~60-65% flow-through rate for the business.
- Further, Ama Stay offers facilities such as swimming pools, spa, and gym for their guests at IHCL's nearest group hotel. It also offers activities such as Jeep Safari, Plantation walk, and Plantation Safari at Tata coffee plantations and golfing at Tata coffee's golf course.
- Accordingly, Ama stay can also leverage the vast footprint of IHCL in India using a hub-and-spoke model of operations for its bungalow.
- Management is focused on expanding its national footprint before looking at the international market.

#### Robust growth runway for the homestay industry to drive sales for Ama

- The IAMAI (Internet and Mobile Association of India) report of Aug'21 estimates total Gross Value Added (GVA) of the homestay segment in India to be at ~INR8.8b. The report highlights the key reasons for homestays and vacation rentals to emerge as suitable alternatives. The increasing number of tourists (both domestic and international), lack of tourist accommodations and the aspiration of new age millennials for authentic, bespoke, and real experiences drive the industry demand.
- Thus, companies are trying to capture the opportunities in the homestay business, especially in remote and leisure destinations where access and availability of hotels is lower.
- To tap into the growing demand of this segment, online travel aggregators such as MakeMyTrip, Booking.com, and Cleartrip are constantly adding villas and homestay options on their portals. 'MakeMyTrip' has seen a 70 per cent increase in homestay listings from tier-II and unexplored destinations over prepandemic levels.
- As per industry reports, a vacation home can yield an annual return on investment of 12-15 per cent for an asset owner in a best case scenario, much higher than the conventional hospitality asset class.
- Stay Vista (over 500 holiday homes across 50 destinations; focused on luxury villa segment) and Saffron stays (over 250 homes) are some of the key players operating in the homestay management segment.
- Also, considering the downside, it is observed that the industry is facing a few regulatory bottlenecks as the owners have to register their homestays as per the ministry of tourism guidelines under 'incredible India bed & breakfast/homestay establishment'. Further, various states have their own tourism policies. Also, in addition to a physical verification process, the registration requires multiple NOCs from different departments including local bodies.

#### **Qmin – Scaling up the F&B vertical**

#### Initially started as food delivery vertical during the COVID-19 pandemic...

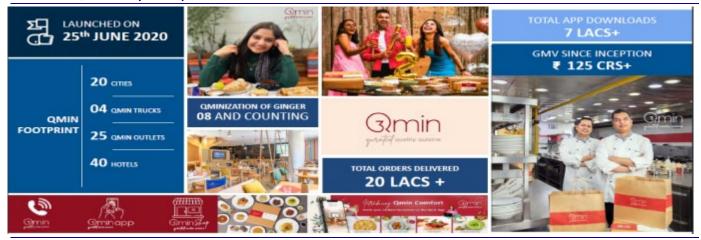

- The Indian Online Food Delivery market stood ~INR411b in CY21 and is expected to touch ~INR1.8t by CY27, registering 30% CAGR over the period (as per 'researchandmarkets').
- IH launched Qmin during the COVID pandemic to offer customers home delivery of their favorite meals from IH restaurants to their homes. Currently, Qmin is present in 20 cities, with 37 Hotels and over 75 restaurants onboard for delivery.
- It has ~0.7m app downloads, with more than 2m orders, and has crossed a Gross Merchandize Value (GMV) of ~INR1.25b since its inception (i.e. Jun'20), including ~INR0.66b in FY22.
- It charges a fee of 22% on the GMV for sales made through its contract hotels.
- It garners ~75% of orders received from the top five metros as Qmin's secondary and tertiary market penetration is not as strong as it has been in the metros.
- It is a high-margin business with a very high RoCE, as the company has not built any additional infrastructure for the business.
- Qmin initially started with the delivery of signature food from Taj restaurants, but recently introduced Qmin comfort food – a delightful spread of pan Asian, Indian, and Thai dishes, including delectable sweet delights.
- Further, it broadened the scope and reach of the menu choices from festive menus, value-for-money offerings, and new food categories. Thus, it has brought down the average order value, but not the number of orders.
- Qmin also added a large-scale service feature called 'Qmin Celebrations' under which it serves events like online celebrations, virtual meetings, corporate management meets and social gathering, and celebrations by serving the same curated menu to people across different cities using its vast network of restaurants. It has managed to provide over 0.1m meals under this initiative in a span of less than a year.
- The Qmin app is accessible from nine major nations, allowing people to send or gift Qmin meals across major cities in India.

#### ...now expanding its presence in QSR and other verticals

- Qmin has moved from the Food Delivery business and added other verticals like Restaurant and QSR (Qmin Café/Qmin Shops/Qmin on the Move).
- It has expanded its reach through its offline presence, with the launch of its food trucks – 'Qmin on the Move' – in 1QFY22 in Delhi and Bengaluru, aimed at serving comfort food across large neighborhoods and business districts in major cities.
- IH expanded its Qmin operations by launching four lifestyle gourmet Qmin stores in Mumbai and Delhi and 11 Qmin Cafes in Bengaluru (Tata Cha outlets; taken over by IH from TATACONS). Further expansion of Qmin's QSR business is underway within Bengaluru and will soon be taken to other cities.
- Currently, the Qmin portfolio has reached 25 outlets including the 11 outlets taken over from 'Tata Cha' and eight from Ginger
- The management is planning to open a Qmin restaurant in almost all its Ginger hotels under it's **Qminization of Ginger** program. This is expected to be a key driver for the Offline segment. IH is planning to add more Ginger hotels, taking its total Hotel count to ~125 by FY25-26. The management expects ~90 Hotels to feature a Qmin restaurant, which, along with other QSR outlets, will lead to a significant increase in Qmin outlets by FY25-26.
- It aims to expand the brand in more than 25 cities by FY25-26 through its AVHAAN CY25 initiative. It is expecting Qmin (across all verticals) to deliver an annual revenue of over INR1b within the next two-to-three years.

## Management contracts: The margin and RoCE accretive segment

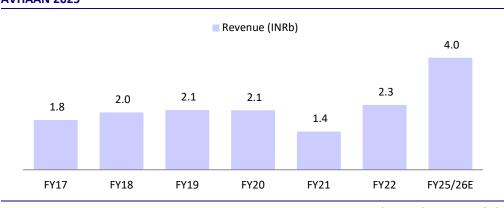

- Management contract fees for FY22 stood ~INR2.3b v/s ~INR1.4b/INR2.1b in FY21/FY20. Under its AVHAAN 2025 guidance, the management expects to increase management contract fees to ~INR4b by FY25-26.
- The number of rooms managed by IH has risen to ~7,439 rooms in FY22 from 6,496/5,832 rooms in FY21/FY20. Based on its current pipeline, the numbers of managed rooms are expected to rise to over 12,000 by FY25.
- IH is focused on its managed portfolio, with the management is expecting to add ~40-60 management contracts for every 10 new owned and leased Hotels.
- Currently, the managed room share of the portfolio stands ~46% (including those in the pipeline) v/s 39% in the pre-pandemic period (FY20). The management expects the same to be ~50% by FY25-26. Increasing share of management contracts is RoCE accretive as the segment operates with ~75% EBIDTA flow through.
- IH is planning to add ~8,327 rooms by FY27, of which ~6,148 rooms (i.e. ~74% of rooms in the pipeline) are under a management contract, with ~2,501/1,180/1,753/714 rooms under the Taj/SeleQtion/Vivanta/Ginger brand.
