MOFS reported a steady performance during Q3FY25 amid volatile markets, with Operating PAT at Rs5.25bn (+39% YoY, -3% QoQ); however, a treasury loss of Rs0.7bn resulted in consolidated PAT (including OCI) at Rs4.56bn (-41% YoY, -63% QoQ). Given the regulatory changes and impact of the volatile equity markets, the Wealth Management segment saw a sequential decline in PAT whereas the Asset & Private Wealth Management business saw 10% QoQ PAT growth driven by AUM growth. Healthy disbursements and AUM growth resulted in strong PAT growth in the Housing Finance business. The management continues to invest in RM addition across the Wealth Management and Private Wealth Management businesses, for driving growth, whereas the Asset Management business will see expansion in distribution with an increased sales-force and continued launch of products. Given the volatile market conditions, we expect the businesses to be impacted. We cut FY26-27E PAT by 8-9% and reiterate BUY on MOFS, while revising down our TP to Rs900 (a $\sim 14\%$ cut), given favorable valuations and its well-established franchise track record of thriving through market volatilities and cycles.

Asset and Private Wealth Management businesses drive a steady show

MOFS reported a steady quarter during Q3FY25 amid volatile market conditions, with operating PAT at Rs5.25bn growing 39% YoY but declining 3% QoQ, driven by robust sequential growth in the Asset and Private Wealth Management segments. The Wealth Management segment saw impact of the volatility in equity markets and of the new regulations in the F&O segment resulting in 24% sequential decline in Broking revenue. However, the company saw a 7% sequential growth in Distribution revenue. Overall, Wealth Management segment PAT grew 16% YoY but declined 16% QoQ. Asset and Private Wealth Management businesses saw healthy PAT growth of 63% YoY and 10% QoQ, driven by strong AMC AUM growth of 17% sequentially. Asset Management business witnessed market share expansion across SIP AUM and SIP flows. The Housing Finance business witnessed 3% QoQ growth in AUM, backed by a healthy 7% QoQ growth in disbursements driving PAT growth of 33% QoQ. Treasury loss at Rs0.7bn as against profit of Rs7bn QoQ and Rs3.9bn YoY impacted the consolidated PAT (incl OCI).

Investments across business segments to continue; growth levers across business segments intact

While the company saw a steady performance in Q3 across business segments, the management remains focused on investing across business segments toward driving growth and leadership, given the large opportunity on account of the mega trend in capital markets. With focus on distribution, the company has over 600 members in the sales team in the Wealth management business which it plans to increase to 1,000 members. In the Private Wealth management business, the company has hired a senior leadership team with continued addition in RMs which, coupled with improvement in RM productivity, will drive AUM growth. The management plans to drive growth in AMC AUM with continued addition of new products and focus on expanding the distribution network. The management retained its guidance of 20% growth in HFC AUM, given the continued addition of sales force in the HFC business.

We maintain BUY with revised down TP of Rs900

To reflect the developments across business segments and given the volatility in equity markets impacting the Wealth Management and Asset and Private Wealth Management businesses, we cut our Operating PAT by 8-9% over FY26-27E. We maintain BUY on MOFS with a revised down Dec-25E TP of Rs900 (from Rs1,050 earlier, at a \sim 14% cut) driven by cut in estimates and a downward revision in multiples across business segments.
